Included with UDProtect UDP Appliances

UDProtect Appliances	Included
Hardware Appliance	✓
Software updates	✓
Fully managed help desk support	✓
4 Hour fix hardware maintenance	✓
Ability to backup to tape for long term retention	✓

Backup, Testing and DR Sizing Guide**

Model	Testing and DR			Backup Capacity		
	Virtual CPU	RAM	RAW Storage	Dedupe Backups	12 Months Retention	36 Months Retention
UDP-1215	24 vCPU	64Gb	15TB	45TB	30 TB	20 TB
UDP-1230	24 vCPU	128Gb	30TB	90TB	60 TB	40 TB
UDP-1260	48 vCPU	128Gb	60TB	180TB	120 TB	100 TB
UDP-1290	48 vCPU	128Gb	90TB	270TB	180 TB	150 TB

**The size guides are based on typical uses. Actual capacity can vary depending upon the data and number of recovery points.

Why UDProtect – in a Nutshell

1. All UDProtect Appliance are upgradable when and if required
2. Your offsite T4 replication partner is a dedicated mirrored appliance, with minimum of the same rendition and capabilities depending on your requirements
3. We do not share your off-site infrastructure in anyway with other customer
